## ATTENTION

Rinse accurately after use, and dry with a clean cloth

To clean the sink, normal detergent can be used, as long as it does not contain hydrochloric Acid (Commercial Muriatic acid) or its derivatives

In case of persistent stains, try to clean with some warm vinegar or with specific products for Stainless steel

Do not use steel sponges to clean the sink, or any other item that could scratch the surface

Avoid using muriatic acid or bleach

Do not leave iron objects on the sink for long

·In areas where the water is hard, a deposit of limestone can build up. If this occurs an anti scale product can be used, correctly diluted with the water. Rinse thoroughly with Water and dry.
